

SUMMARY

Data professional experienced in **AI data analysis**, **data engineering**, **data management**, and **BI reporting**, with a strong background in **Microsoft Power BI** and **Power Apps**. Developed multiple applications for government projects, focusing on data organization, ETL processes, automation, and visualization. Skilled in improving data processes to support informed decision-making.

TECHNICAL SKILLS

- **Ai Tools:** Cursor AI, Claude AI, OpenAI Codex, Google Antigravity, Vapi AI, Manus, n8n, Google Studio AI
- **Programming Languages:** Python, DAX, SQL, JavaScript, R
- **Business Intelligence:** Microsoft Power BI, Tableau, Google Looker Studio, Paginated Report Builder
- **Platforms & Tools:** Microsoft Power Apps, Power Automate, Dataverse, Azure DevOps, SharePoint, Oracle Apex, Google Ads, Meta Ads, Amazon Ads, Versal, Twilio
- **Databases:** Microsoft Dataverse, SQL Server, MySQL, SQLite, PostgreSQL
- **Data Management:** ETL Processes, Data Modeling, Data Migration, Cleaning & Transformation, and Automation
- **Cloud/OS:** AWS Console, Windows, Linux, Mac

PROFESSIONAL EXPERIENCE

AI Data Analyst | Dementia Aide, CA

October 2025 - May 2026

- **Extracted and analyzed** large-scale multi-year **e-commerce datasets** using Python to identify statistical trends in search term performance, optimizing revenue and key performance metrics by 70%.
- Built **automated workflow scripts** using **Vibe coding** and **prompt engineering** in **Cursor AI**, replacing 15+ hours of manual spreadsheet categorization of raw CSV exports by processing 26,000+ negative keywords into platform-ready lists.
- Created **Power BI dashboards** to visualize ad performance and user demographics, speeding up internal decision-making.
- Conducted **historical data analysis** across **20+ multi-channel campaigns** to formulate data-driven strategies, optimizing Return on Ad Spend (ROAS) to over **4.0** and increasing conversion rates.
- Formulated **data-driven campaigns** and continuously monitored and adjusted cross-channel budget allocations to ensure optimal ad spend.

Data Engineer | Microsoft Power Apps Developer | Ark Infotech LLC, MD

May 2023 – August 2024

- Developed 6 **data applications** for NIH government projects, integrating **Power Apps** and **Power BI** for seamless reporting and data visualization.
- Designed and implemented **relational data models** in **Microsoft Dataverse**, improving data integrity and storage efficiency.
- **Configured Playwright MCP setup** and used Vibe coding to generate browser automation testing scripts, reducing manual testing time and ensuring platform stability.
- Developed **Power BI dashboards** and **Paginated Reports**, enabling stakeholders to make data-driven decisions through data visualization.
- Developed Python-based **ETL and machine learning-assisted** workflows to flatten and structure complex government datasets into relational formats for Dataverse applications and reporting systems.
- Enhanced application functionality with **Power Automate workflows** for data-driven automation processes.
- Automated data workflows with Python scripts to clean, format, and prepare datasets for migration to Dataverse.
- Migrated and integrated legacy datasets from **SharePoint**, Excel, and Access into Dataverse.

CAMPUS INVOLVEMENT

Campus Tour Guide, SUNY Farmingdale College

May 2022 – May 2023

- Led tours of campus facilities for groups of 1-20 individuals, engaging them with interesting facts and the university's most notable accomplishments.
- Learned in-depth information about the campus and relayed the information to attendees through effective public speaking.
- Answered questions and assisted new incoming students and parents related to enrollment, facilities, and courses.

Event Organizer - SUNY Farmingdale College

Feb 2021 – May 2022

- Led planning and execution of cultural events on behalf of the International Student Association.
- Advertised events through campus social media platforms and helped increase student participation.

EDUCATION

Master of Science in Data Analytics, Catholic University of America - May 2026

Bachelor of Science in Computer Engineering, State University of New York (SUNY) - May 2023

CERTIFICATION

Microsoft Certified: Power Platform Developer Associate.

Microsoft Certified: Power Platform Fundamentals.
